

## **Test Team Lead**

### **Our Company**

Network Plus is a leading utility and infrastructure service provider, operating across the UK.

Originally established in 2000, the company has grown significantly through the award of long-term contract frameworks with major utility organisations and infrastructure providers. With a current workforce of over 2,000, our services are delivered through an absolute focus on health and safety as well as market leading levels of service to both our clients and their customers.

Our Headquarters are based in Salford, near Manchester, and we operate from over 24 regional depot bases. We deliver services 24/7/365 in city centres as well as rural locations.

Our vision is to be the best service provider in the UK utilities and infrastructure sectors by safely constructing, maintaining and managing essential services at the lowest sustainable cost.

### **Our Role**

As a Test Team Lead you will be the focal point for Quality in the IT Team. You will manage and train the Test Team, as well as work closely with the Development team. You will be familiar working an Agile way and confident working alongside both technical and non-technical stakeholders. This is a very exciting time to join the IT Team with big changes coming including to ways of working and cool new offices.

### **Key responsibilities**

You will lead, guide and monitor the analysis, design, implementation and execution of the test cases, test procedures and test suites

You will manage the Test team including line management and mentorship

You will train members of the team in Automation Testing

You will shape the direction of the team and Testing in the business in general

You will still be hands on in Automation and Manual Testing

You will implement Regression Testing

You will be very much a Senior/Test Lead role, so leading from the front

You will drive Agile working in the team

## **Experience and knowledge**

Experience of managing a Test Team

Prior experience as Software Tester / QA Engineer

Automation testing experience - ideally using Selenium Web Driver with C# or Java

Experience in the following would also be beneficial - Katalon Studio, Selenium, Postman and My SQL

Experience of Agile methodologies

Testing Principles and Practices

TDD

Ability to collaborate with developers, business analysts and other test professionals

## **Salary and Benefits**

We offer a competitive salary based on experience along with a full benefits package.

Network Plus is proud to be an Equal Opportunity Employer. We celebrate diversity and do not discriminate based on race, religion, colour, nationality, sex, sexual orientation, age, veteran status, disability status, or any other applicable characteristics protected by law.

We are Armed Forces-friendly. We welcome applications from ex-Armed Forces personnel, reservists, armed forces veterans, cadet instructors and military spouses/partners.

We understand that privacy and the security of your personal information is extremely important. By applying for this role, you agree to the terms of our privacy policy which you can find here - <https://networkplus.co.uk/privacy-and-cookie-policy>.
